HOW TO ADD AN AFFILIATED GROUP

CANDIDATE SERVICES TIP(S):

- ✓ You must disclose affiliations between individuals and entities if the individual either owns or has significant decision-making control over the entity and if both the individual and the entity contribute to your campaign. In that case, their contributions would be aggregated and subject to a single contribution limit.
- ✓ In order to disclose affiliated contributions, you must first enter the individual contribution(s) made by the affiliated contributor(s). After you've added the affiliated group by following these steps, you can add members to the group. See How to Add a Member to an Affiliated Group for instructions.
- ✓ Create affiliated groups in C-SMART when applicable to ensure that contributions from individuals and their affiliated groups are aggregated. This will help you avoid compliance issues due to over-the-limit contributions from individuals and their affiliated groups.

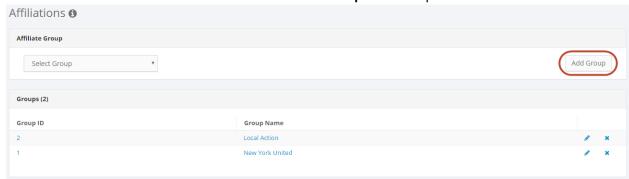

1. Go to Affiliations.

Click Transactions and then Affiliations.
